

Stakeholder Map

Key motivators & concerns for installment financing launch, informed by 450-customer survey (77% prior usage, 74% premium purchase lift). Priorities reflect influence on decision & alignment with data-driven growth.

Daniel
Head of Sales

Motivators

- Expand customer base & close more premium deals (74% more likely to buy with financing)
- Offer competitive purchasing options aligned with consumer demand (77% prior usage)
- Easy-to-sign digital agreement process

Concerns

- Delayed revenue recognition & longer sales cycles
- Extended time between purchases during repayment
- Sales team training time on new financing tools

Elie
Chief Financial Officer

- New revenue stream + higher ASP on flagships (74% purchase lift)
- Sustainable growth & capital allocation per 20+ yrs Fortune 500 experience
- Data-backed model (450-customer survey validates demand)

- Bad debt / AR ballooning risk (seen in competitor analysis)
- Delayed cash flows impacting quarterly forecasts & profitability
- Need robust credit models & provisioning for 0% plans

Raj
Chief Technology Officer

- Modernize payment platform & capture richer customer data
- Scalable digital experiences supporting global growth
- Aligns with 18+ yrs digital transformation leadership

- Integration complexity with existing ERP/billing systems
- Cybersecurity & PCI compliance for payment data
- Scalability testing & downtime risk during rollout

Michael
Chief Marketing Officer

- Positions BeyondTech as innovative & accessible (TechCo benchmark success)
- Drives loyalty via flexible options matching survey preferences (longer 0% terms)
- Strengthens premium brand equity with clear value proposition

- Risk of brand dilution if seen as "high-risk" financing
- Customer confusion on terms (top concern: hidden fees 101 responses)
- Need crisp messaging to maintain premium perception

Asha
Chief Operating Officer

- Affordable entry reduces returns & support tickets
- Predictable demand from financing data improves planning
- Aligns ops with long-term efficiency (25+ yrs global ops experience)

- Spike in customer service volume for payment disputes
- Supply chain & fulfillment scaling for demand surge
- Added operational cost & training for new program
